

HOSPITAL PREPAREDNESS PROGRAM

HPP prepares the nation's health care system to save lives during emergencies and disasters.

PROGRAM EVOLUTION

2002–2011

Individual facilities purchase equipment with HPP's support.

Hospitals use HPP funding to buy tangible resources like ventilators, mobile medical units, and pharmaceutical caches.

2012–2016

HPP formalizes support for regional health care coalitions.

Awardees disburse HPP funding to HCCs to promote the development of health care capabilities.

2017 and beyond

HPP emphasizes the role of HCCs as response entities.

HCCs use HPP funding to operationalize for response by optimizing membership and geographic coverage.

HPP BY THE NUMBERS

62 awardees—health departments in states, localities, territories & freely associated states—who support health care coalitions

476 health care coalitions (HCCs) across the nation

31,000 HCC members nationwide

96% of HCCs feel that HPP support has improved their ability to decrease morbidity and mortality during disasters

\$265 million annual appropriation for each Fiscal Year 2018–2019

\$5.9 billion invested in health care preparedness since 2002

HPP is the only source of federal funding for health care system readiness.

HPP prepares the health care system to save lives through the development of regional health care coalitions. HCCs are groups of health care and response organizations that collaborate to prepare for and respond to medical surge events. HCCs incentivize diverse and often competitive health care organizations to work together.

NATIONAL PARTICIPATION RATE OF HCC CORE MEMBERS

85%
of hospitals

82%
of local health departments

56%
of emergency management organizations

27%
of EMS

85% of hospitals nationwide participate in HCCs
